

In Technicolor, Pt. II

Jesse McCartney

Once upon a time babe, I was color blinded
Nothing was reaaaal, no no no
I was just a blank page,
You color in the lines baby, It's so surreal
You saved me
You took my love from black and white
now I live in Technicolor, I don't wanna be without you, living in a world with no view
what the hell would I do, would I do
no clue, I need you in Technicolor (x2) Technicolor, Technicolor, in Technicolor (x2) Give me red give me red
give me romance
()
and change my color every time you give me that
()
I runaway with you baby,
I runaway witcha You saved me
You took my life from black and white
now I live in Technicolor, I don't wanna be without you, living in a world with no view
what the hell would I do, would I do
no clue, I need you in Technicolor (x2) Technicolor (she's loving me), Technicolor, in Technicolor
Technicolor, Technicolor (there's no other place), in Technicolor
in Technicolor, in Technicolor
I don't wanna be without you, living in a world with no view
what the hell would I do, would I do
no clue, I need you in Technicolor (x4)
you got me seeing
girl I don't know what I would do
