Baptism of Fire

Sodom

Product of my breeding
Inauspicious shapes
Formed by depravity
Abnegation of my pastResigning, ireful
Watching the depopulation
Danger, impotence
Envelope the world with fearUnnatural decay
Disclose the human need
Ptomaine, cremation
Baptism of fire we'll not surviveAbject and spirited
Getting excessive with results
Dislike a normal life
Excruciating waste awayResigning, ireful
Watching the depopulation
Danger, impotence
Envelope the world with fearUnnatural decay
Disclose the human need
Ptomaine, cremation
Baptism of fire we'll not surviveSymptoms of pathogenia
De-propotionate your body
Incurable disfigurement
Bones decompose aliveResigning, ireful
Watching the depopulation
Danger, impotence
Envelope the world with fearUnnatural decay
Disclose the human need
Ptomaine, cremation
Baptism of fire we'll not surviveReturn to biogenetics
Turn over a new leaf
To form a vicious circle
Till end of time
