

# SOS

## Fates Warning

We wait for days  
The hours can't replace  
That moment of walking away There's none to blame  
But buildings still remain  
Their empty halls fading away  
And now I  
I can feel the rain  
Falling on me  
I can see the waters rising  
Undermining me I can feel the rain  
Wash over me  
Can the places and the faces  
In the flood be saved Now the darkness fades  
And thoughts fall in to place  
Let the flood take away  
The pain of yesterday Sink or swim  
Sink or swim  
So now I can feel the rain  
Falling on me  
I can see the flood is rising  
Undermining me I can feel the rain  
Wash over me  
Can the places and the faces  
In the flood be saved
