Hate Breed

Stuck Mojo

I lived beyond my fearsUntil my yearsHave withered me, delivered meDivinity and you'll
Never catch me on my kneesRide upon my horse so mightyHated both the black and white
Always constant never falterRage like fire move like water(This hate makes me a better manMy hate helps me take a stand)
Strong inside, clear of purposeHeart of stone, never nervousNever hidden never ranSo hate me with all you can
Hate Breed (I've fallen in with the hate breed)You wanna feel the rush until the crushhas beat you down spins you aroundThe hate you found and your rage
will never let you downStrike them down with all your furyJudged with hate the acting jury
Always swift with no deliberation justicedone purification
