

# Firecracker

Frazey Ford

I was a sailboat  
I was a sailor  
I was a son of a gun of a gun  
I made it happen  
Down in the schoolyard  
I was a firecracker exploding  
Hallelujah! The sparks flew up to heaven  
They saw my smile  
And I was laughin' so hard  
Hallelujah! The sparks flew up to heaven  
And I left the sober people  
With their cold hearts  
Sometimes there is someone  
Someone who knows you  
But when you are sad  
There is no one  
But I'm a red bicycle  
Rollin' and rollin'  
I'm quicksilver, I'm a dealmaker  
Don't you cross me once  
Hallelujah! The sparks flew up to heaven  
They saw my smile  
And I was laughin' so hard  
Hallelujah! The sparks flew up to heaven  
And I left the sober people  
With their cold hearts  
Nothin' can hold me  
To this earth that don't roll me  
And I don't know  
If I'm dirty or clean  
Well I was a sailboat  
I was a sailor  
And I was a firecracker exploding  
And o! why do you cry,  
Sister, cry?  
I've been talkin' with angels and it's gonna be fine  
Hallelujah! The sparks flew up to heaven  
And I left the sober people  
With their cold hearts
