

# Blood on Your Lips

## Sodom

Stalking down the enemy  
These haunting memories  
The evil men are killing blindly  
Erased of human waste  
It's frozen in their face  
Traumatic minds enslaved  
Screams that never reached my ears  
Until the death redeems Ambivalence  
Lost salvation  
Lunatic fringe  
Incarceration  
Freedom's slave  
Subliminal deceit Blood, blood on your lips  
Measure my faith  
Come on to die with me  
Blood, blood on your lips  
You're falling down  
Into a pitiless sleep My systematic procedure  
Within my conscious mind  
Can't wash away the crimson stains  
No tears that save my eyes  
Passion for the flesh  
I know that never dies  
The devils that surround me  
Never asking why Imagination  
Victimized  
Obliteration  
Justified  
All I see  
The multitudes of death Blood, blood on your lips  
Measure my faith  
Come on to die with me  
Blood, blood on your lips  
You're falling down  
Into a pitiless sleep Blood - Die with me  
Blood - On your lips I am the chosen one  
Your dad and your lovely mum  
I'll offer my secrets for you  
My physical lust This is for me and you

Searching to find the truth  
No reason for you to cry  
We'll find the paradiseBlood on your lipsAmbivalence  
Lost salvation  
Lunatic fringe  
Incarceration  
Freedom's slave  
Subliminal deceitBlood, blood on your lips  
Measure my faith  
Come on to die with me  
Blood, blood on your lips  
You're falling down  
Into a pitiless sleepBlood - on your lips  
Blood - Die with me
