

# Draw Me Close

## Women Of Faith

Draw me close to you, never let me go  
I lay it all down again to hear you say that I'm your friend  
    You are my desire, no one else will do  
    'Cause nothing else can take your place  
    To feel the warmth of your embrace  
Help me find the way, bring me back to you  
    You're all I want  
    You're all I've ever needed  
    You're all I want  
    Help me know you are near  
Draw me close to you, never let me go  
I lay it all down again to hear you say that I'm your friend  
    You are my desire, no one else will do  
    'Cause nothing else can take your place  
    To feel the warmth of your embrace  
Help me find the way, bring me back to you  
    You're all I want  
    You're all I've ever needed  
    You're all I want  
    Help me know you are near  
    You're all I want  
    You're all I've ever needed  
    You're all I want  
    Help me know you are near  
    Help me know you are near  
    Help me know you are near
