

# The Great Divide

## Breaking Benjamin

Carry me all through the night  
I am the last light fading  
Leave all the lost souls behind  
Show me the silence breaking  
And when you're lost and out of time  
I will be right here waiting  
And when your dreams return to life  
I'll be forever fading  
And we'll fall behind So I'll wait for you  
As I keep your faith alive  
And I'll pray for you  
As we cross the great divide Bury the wounds deep inside  
Rupture the fault line breaking  
Dream of the world left behind  
Show us we're worth forsaking  
And when the cold begins to rise  
Darkness is overtaking  
And when the fear is satisfied  
I'll be forever changing  
As we all realize So I'll wait for you  
As I keep your faith alive  
And I'll pray for you  
As we cross the great divide  
And I'll break for you  
As I open up the sky  
And I'll stay for you  
As we cross the great divide Follow the sun light down  
Cry clear and loud  
Heaven won't help us now  
But it's better this way  
Warm light wash me away So I'll wait for you  
As I keep your faith alive  
And I'll pray for you  
As we cross the great divide  
And I'll break for you  
As I open up the sky  
And I'll stay for you  
As we cross the great divide
