

# The Way You Is

## Dry County

Do you know what yer doin' to me?  
    I see the sweat down pourin'  
        An' I'm dyin' to drink  
        Every drop, every shot  
        Fallin' from you  
    You been a real bad girl  
Ya need to go to my room I love the way that you is  
    I love the way that you are  
    How you shake your booty  
    When you dance on the bar  
    Love the way you look at me  
    Like I'm the only thing in your life  
    I love the way that you is  
And I love the way that you are mine  
    What you say later  
    We go out to the lake  
    An' we can reminisce  
    Skinny dip our first date  
    Pickin' up, n' lickin' up  
    Where we left off  
Under the water blanket covers  
Where we're bobbin' for us, oh  
    I love the way that you is  
    I love the way that you are  
    How you shake your booty  
    When you dance on the bar  
    Love the way you look at me  
    Like I'm the only thing in your life  
    I love the way that you is  
And I love the way that you are mine  
    I love the way that you is  
    I love the way that you are  
    The way you shake your booty  
When you dance on the bar I love the way that you is  
    I love the way that you are  
    The way you shake your booty  
When you dance on the bar I love the way that you is  
    I love the way that you are  
    How you shake your booty

When you dance on the bar  
Love the way you look at me  
Like I'm the only thing in your life  
I love the way that you is  
An' I love the way that you are mine I love the way that you is  
An' I love the way that you are mine  
I love the way that you is  
Mine
