

Shake

999

You try so hard to express
The words you use are in excess
But don't you try to run, don't you try to warn
You can't get nowhere with that ta-ta-ta-talk You shake
Shake
Shake You gotta charge of energy
It looks like an emergency
But there's no way out, you're falling down
And everything's going round and round and round You shake
Come on Shake
Now shake What's your situation'
Action in distress
Come and watch me take off
Come on, wake up
It's a shake up Shake
Shake
Shake Shake
Shake
Shake Shake
You may shake
I said shake Shake
Shake
