

The Unsung Heroes

Kansas

I need to tell you
I must convey
The thanks I feel for the people that face everyday I know the feeling
I lived the life
Waking each morning to fight the daily grind (Chorus)
And I know it's hard to go on
When it seems like your strength is all gone
But I'm here to say
Deliver some praise
To the unsung heroes of each day ... We're all dependent
To strive and sustain
No task too simple
No danger for those who are brave (Repeat Chorus) When tragedy strikes
We come together like a chain
We can make all things right
When we see things the same
Hearts beat as one
When we share some love
I do believe
It can be done ... We're really no different
In some way, we all pray
We search inside ourselves
And we all find our faith I need to tell you
I must convey
The thanks I feel for people in every way ... (Repeat Chorus)
