Endless Nights

Sabaton

Clouds are gathering in the darkness
Lightning strikes the Earth
Evil forces celebrate, Lucifer's rebirthNecromancers, sacrifices, he'll be here for sure
Drained blood from a thousand men, and now he's back for moreHe will rise from a world down under
Bringing fire, plague, death and thunder
Summons creatures unknown to mankind
Demons of the pastUnholy rites. Assassins from hell
Cold endless nights upon us fell
The storm strikes our land with madness and pain
Winds of the damned drives us insaneSatan's hordes are coming closer, now it's time to pay
Riding on the wings of death searching for their prey
Now the time has come for mankind to prove strong or fall
Fighting against unholy creatures spawned in Satan's hallTrapped in hellfire he was burned
Once locked up but the wind has turned
Seeking vengeance in pain and slaughter
Back on earth againDemons marked with the five-edged star
Haunt our dreams in this endless war
Killing children and raping women
Now it's time to die
