

Cluster Fuck

C.J. Ramone

Everything is going wrong
Don't tell me it's all in my head
We gotta keep it running strong
Ain't gonna push us all aside
Your rolled up sleeves and your arrogant
Smile

Everyone knows you're fucking weak
You keep promising a real bright future
But it's all fading to black
And all the sheeple that thought you you were
So smart

Now they'; re all running away
The new messiah is now the pariah
Your ship is sinking faster every day
You're a traitor to God and country
Everyone knows you're fucking weak
You keep saying things are gonna get better
For us they're only getting worse
