

wildfire

Soulcracker

How many hearts can have everything
Never ever found the one and all the fire it brings
I wanna try more now, than I dared before
I've got to know what passion is
 Girl I've got to find the love
 Day to day nothin' there, I had to let go
 Heard a call that I resisted, 'cos it had no soul
 When you get and never give it
 It's so cold
 You're something else, oh I know
 I've got this wildfire that only grows
 Every day it's in my soul
 This wildfire, it's burnin' deep
 It's burnin' deep, burnin' burnin'
 Wildfire, it didn't take long
 All my life is not too long
 This wildfire is burnin' bright
 Burnin' bright, burnin', burnin'
 All, all around me
 There's a fire that's catching on
 Make a burnin' field of dreams
 Little spark of light, touched and grew
 Fed by all the love
 That I'm feeling here with you
 No one can believe it, but they can see
 Since we've been together
 You've made a change in me
 Bein' alone is so wrong, it's so so cold
 When somethin's right, ooh I know
 I've got this wildfire that only grows
 Every day it's in my soul
 This wildfire, it's burnin' deep
 It's burnin' deep, burnin' burnin'
 Wildfire, it didn't take long
 All my life is not too long
 This wildfire is burning bright
 Burnin' bright, burnin', burnin'
 We gotta live to give, live and let love
 Be here in the moment with the

One I want
'Cos bein' alone is so wrong
It's so cold
When somethin's right, ooh I know
Ooh I know
I've got this wildfire that only grows
Every day it's in my soul
This wildfire, it's burnin' deep
It's burnin' deep, burnin' burnin'
Wildfire, it didn't take long
All my life is not too long
This wildfire is burning bright
Burnin' bright, burnin', burnin'
It's in my thoughts, everyday
And I got this wildfire, burnin' on
Not too hard to carry on
Can't leave it, can't believe it
