

Wrap My Head Around That

Lucinda Williams

You told me you love me
Said you wanna be with me
You told me you love me
Said that you wanna be with me You looked right into my eyes
Said, "I'm not like the other guys"
You looked right into my eyes
Said, "I'm not like the other guys" I know what I think I saw
And what I thought I seen
And what was coming and what was going
And everything in-between What I thought I heard you say
And what you really said
And what I thought you thought I thought
Was actually in your head And what you meant to tell me
And what I meant to say
And what I said, you said I said
What went the other way I know what you did to me
And I know what we did
And who did what to who
And who the hell were you trying to kid? You told me you love me
You said you wanna be with me
You told me you love me
You said you wanna be with me You looked right into my eyes
Said, "I'm not like the other guys"
You looked right into my eyes
Said, "I'm not like the other guys" I know more you think
I know more than you think about
And no one think you, no one think you
Got it all figured out I know I'm missing something
Or something's missing here and there
And all over and over around
And up and everywhere And you're just all up in and
Lookout you're zipper is gonna break
And I'll pop you a little party favor
And you just take the cake I can't believe I believed you
When I found out where you're at
And finding out why you're too much
I'm trying to wrap my head around that You told me you love me
You said you wanna be with me
You told me you love me

You said you wanna be with me You told me you love me
You said you wanna be with me
You told me you love me
You said you wanna be with me I know what I think I saw
And what I thought I seen
And what was coming and what was going
And everything in-between What I thought I heard you say
And what you really said
And what I thought you thought I thought
Was actually in your head And what you meant to tell me
And what I meant to say
And what I said, you said I said
What went the other way I know what you did to me
And I know what we did
And who did what to who
And who the hell were you trying to kid I know more you think
I know more than you think about
And no one think you, no one think you
Got it all figured out I know I'm missing something
Or something's missing here and there
And all over and over around
And up and everywhere And you're just all up in and
Lookout you're zipper is gonna break
And I'll pop you a little party favor
And you just take the cake I can't believe I believed you
When I found out where you're at
And finding out why you're too much
I'm trying to wrap my head around that You told me you love me
You said you wanna be with me
You told me you love me
You said you wanna be with me You told me you love me
You told me you love me
You told me you love me
You told me you love me
