

# Don't Underestimate My Love for You (Re-Recorded)

Lee Greenwood

(Steve Diamond/Steve Dorff/Dave Loggins)

If I never say the words you want to hear

When I hold you near

Maybe they get said another way

A kiss can mean as much to me as words could ever do

You know I live for you

You shouldn't ever doubt how I feel about you[CHORUS:]

Don't underestimate my love for you, darlin'

It's always there, it's just the way care

If you believe in me, then show more faith in us

Don't underestimate my love

When you have a need for me & I'm not there

You wonder if I'm where

I could meet someone who'd take me from you

In you heart & soul you know I'm the one you can't lose

You know I live for you

You shouldn't ever doubt how I feel about you

(chorus x2)
