Unendlich

Nietzsche

Enter those eyes split back opals
There within Eros is manifest
Dark and light soul sworn to no one
Both it's your game and you know it
I like you lots now, I like you better
Walking your cat girls in leashes and leather
I watch you curl up into a circle
Symbol of eternity, wicked pussycat
My fall is starting
Six foot pussycat, I like the way you swing your tail
Big black witch cat, yes, you cast a real strong spell
Feline succubus, got your fangs inside her throat
Wicked pussycat, got your girl slaves all in tow
Six foot oni cat, I like the way you lick your fur
Evil kitty kat, what's it take to hear you purr
