I've got a head rush, hush, you're heaven's dial, a crush
 I prayed for you forever and he sent you last November, finally
 You better hold tight flight two shadows, one at night
 Each instant lasting so long the spirit in this very song, reminding meLife has taught me lessons like don't dare
 to question fate
 For God will do the gifting all we've got to do is wait
 So if anybody asks you if your love is alive
 Tell them all to count up to three hundred and sixty-five365, 365 days a year
 Three hundred and sixty-five
 That's how much I love you dear
 365I got a love Jones in my bones, I hear a saxophone
 A melody so haunting it leaves my heart never wanting
 More than you, you really fit the bill the first day of April
 Now I know that deep inside my heart
 You're gonna play the biggest part in my love debutFor with you comes the passion like springtime I fathom
 grand
 I cherish every blessing I get when you kiss and hold my hand
 So if anybody asks if your love is alive
 Tell them all to count up to three hundred and sixty-five365, 365 days a year
 Three hundred and sixty-five
 That's how much I love you dear
 365Do you remember last November, baby
 That's when I met you, heaven sent you baby, ahSometimes I stop and throw my hands up in the air
 You make me holler, hey Tee Tee won't go away
 It's more than just a feeling, it's destiny
 I'm gonna testify about the long you're giving to meI'm gonna break it down for you, gonna break down
 Break it down, break it on down, I love you
 Anybody asks if your love is alive
 Tell them all to count up to three hundred and sixty-five365, 365 days a year
 That's how much I love you baby
 Three hundred and sixty-five
 That's how much I love you365, 365 days a year
 That's how much I love you baby
 Three hundred and sixty-five
 That's how much I love you365, 365 days a year
 That's how much I love you baby
