

Wind Weather and Storm

Buck Dharma

Wind, Weather, and storm
Which do you pick to keep you warm
table of tides, the seagulls rise
I pick the weather cause it takes no sides.

Jungle, Desert, and lake
Which to you choose to make you ache
suffering heat, can be a treat
I pick the desert cause it hurts my feet

Hot water, and soap
Which is best in terms of hope
Time for the tub, rub-a-dub
I pick the water for my favorite scrub

Home, Forest and town
Which do you pick to keep you down
Mosquito net, not my bet
I pick the city for my doggy pad

Wind, Weather and Storm
Oh yeah

Jungle, desert and lake
Which do you choose to make you ache

Hot water and soap
which is best in terms of hope

Home, Forest and town
You know one of em's gunna bring you down

Wind, weather and storm
oh yeah

Wind, weather and storm
I pick the weather

Wind, weather and storm

Seagulls

Wind, weather and storm
Seagulls

Wind weather and storm [X4]
