Gordon's Corner
Nudeswirl

Waiting in the night
when the minute arrives come near
when the minute comes it will be time to know
Its alright now move close now

sky through the fire
the sun low slowly burning
turn its toll you will never know

twilights out swallows you down

waiting in the night waiting in the night tell me
we all need time but it will never stop

Calm down Calm Down calm down no

calm yes its calm yes its calm
