

Lincoln Continental

Ne-yo

Taking a ride
No place I gotta be but
Even if I did
I really wouldnt care Shut up and drive
I dont mean to be mean
But your conversation
Would just contaminate my air On a whole other planet today
We need no other population
So be prepared to be turned away
If youre attempting hesitation And if anyone asks
If anybodys looking for me
I said if anyone asks
You can tell them this is where Ill be In the Lincoln Continental
In the back seat all alone
And I just dont feel like talking
Thats why Ive got the glasses on I just dont want to be bothered
Not today not today not today not today no. no, no
I just dont want to be bothered
Not today not today not today not today no. no, no Spare me the question
Dont strain yourself
Trying to make me think
You care if Im okay None of your concern
If this has anything to do
With the fact
She left a year ago today And if anyone asks
If anybodys looking for me
I said if anyone asks
You can tell them this is where Ill be In the Lincoln Continental
In the back seat all alone
And I just dont feel like talking
Thats why Ive got the glasses on I just dont want to be bothered
Not today not today not today not today no. no, no
I just dont want to be bothered
Not today not today not today not today no. no, no Im ignoring the world
Just for a little while
I know it may seem strange
Cos normally this aint my style But just for today
Im gonna spend a little time with misery So if youre looking for me
Baby, this is where Ill be Fighting back the tears In the Lincoln Continental

In the back seat all alone
And I just dont feel like talking
Thats why Ive got the glasses on I just dont want to be bothered
Not today not today not today not today no. no, no
I just dont want to be bothered
Not today not today not today not today no. no, no In the Lincoln Continental
In the back seat all alone
And I just dont feel like talking
Thats why Ive got the glasses on I just dont want to be bothered
Not today not today not today not today no. no, no
I just dont want to be bothered
Not today not today not today not today no. no, no In the Lincoln Continental
