The Night The Lights Went Out In Nyc

Ataris

The lights are out in the city tonight
So close your eyes, gaze up at the heavens
And see if you can point me out
If I could have one wish tonight
I'd wish upon a satellite
To bring me back to you
Bring me back to you
We spend our whole lives searching for
All the things we think we want
And never really knowing what we have
So many paths that we can take
To bring us to our destiny
Gaze up at the heavens
And see if you can point me out
If I could have one wish tonight
I'd wish upon a satellite
To bring me back to you
Bring me back to you, oh
We spend our whole lives searching for
All the things we think we want
Never really knowing what we have
Be careful what you wish for
These stars are fading out
Be careful what you wish for
These stars are fading
If I could have one wish tonight
I'd wish upon a satellite
To bring me back to you
Bring me back to you
We spend our whole lives searching for
All the things we think we want
And never really knowing what we have
If I could have one wish tonight
I'd wish upon a satellite
To bring me back to you
Bring me back to you
We spend our whole lives searching for
All the things we think we want
And never really knowing what we have

What we have, what we have
