Hurt You

She Is Danger

Here we go
Damn, here we go again
Loving you has caused me so much pain
But you don't see it, you never see itSo why apologize?
I was just doing what I had to do baby
An eye for an eyeGod knows I never meant to hurt you
I never meant to break your heart, your heart babe
God knows I never meant to turn you on, to turn you out
Never meant to take it that far, that far baby
God knows I never meant to hurt you
Hurt you, hurt you, hurt you, hurt youBaby (Yeah)
Guilty as charged, I'm not gonna lie (baby)
I did you wrong so many times (yes)
So I know why, you crossed the line
Ooooh but girl, I never dream you'd cheat on meBut I, I apologize
(Don't apologize, don't apologize)
Oh baby, the pain I put you thru
What I did to you
I did the same to you
I made you cryGod knows I never meant to hurt you
I never meant to break your heart, your heart babe
God knows I never meant to turn you on, to turn you out
Never meant to take it that far, that far babyGod knows I never meant to hurt you (to hurt you)
I never meant to break your heart (your heart baby)
God knows I never meant to turn you on, to turn you out
Never meant to take it that far, that far baby (I never meant to take things too far)God knows I never meant to hurt you
Hurt you, hurt you, hurt you, hurt you(Oohoohooh) Can we start over again?
(Oohoohooh) Can we start baby as friends?
(Oohoohooh) I'll give you one more try
The tender kisses you give to me
Would be the only thing that I'd ever needGod knows I never meant to hurt you (no baby)
(I never meant to break, to break you heart)
(I never meant to take, take things too far)God knows I never meant to hurt you
I never meant to break your heart
(Never meant to break your little heart)God knows I never meant to turn you on, to turn you off
Never meant to take it that far, (that far baby)
God knows I never meant to hurt you, to hurt you
Never meant to break your little heart

I never meant to take, to take things too far
