

# Psalm 82

## Cannibal Ox

I said Allah is seen and heard  
Like Ibrahim  
When he came to lead the herd  
Hey, hey, hey  
I said Allah is seen and heard  
Like Elijah  
When he came to spread the word Thinking what's most plausible  
Kickin' that digital audible  
Gettin' through periods transitional  
Beggin' you to move, consider it truth  
Especially through the fixation of elusion  
How could we take it when moving on  
Is the only way to escape when the pressure seems close  
Feeling luke warm  
From heating and having it  
Streaming in and carrying  
Noticing the clouds gathering gaze, the preparation for storm  
When everything comes to a halt  
Visualize travelling as vivid memories comes together  
Like pixels on plasma screens  
Tryin' for a chance to settle in  
Life is fast paced  
As new ideas start to gravitate  
Havin' a way is a disapproval  
The best way is to move through  
Jesus on a crucifix  
This is why the devil is trapped on six  
And to get yourself outta hell  
You gotta say my name backwards like Mxyzptlk  
Hold up, did I mention  
I like to fightimps from the fifth dimension  
It's like the clash of Gods and Titans  
IGC's are crimsing  
I taught Caesar how to crush a grape  
I'm like Musa; civilizing a planet of apes  
You will never ever rap better than me  
I'm where the politicians eat rats like V  
Plus I'm thrice as mean, nahmean  
I'm Dimethyltryptamine

So don't ever think of crushing me  
Cause it's olley olley oxen free
