

River May Come

Wild Yaks

river may come
please a don't take me away
it's here on the earth I wanna stay

we said goodbye
and no I didn't shed a tear
there was nothin' to say about the best years

one more last dance
come on take me by the hand
we'll turn and we'll turn all over this land

water so cold
my skin and bones are freezin'
oh I never thought I'd grow so old

dollars and sense
they never came naturally
though they sure left in a noisy hurry

I wish I could stay
mean it and believe it
that I never let fear get the best of me

river may come
please a don't take me away
it's here on the earth I wanna stay
