It Was You

Sharleen Spiteri

Remember when you said we'd run away
And that you'd love me 'til your dying day
Rumors started you had someone due
I just laughed cause that was all I could doThere was me in love all on my own
10 years if only I had known
So you thought you'd come on back to me
I am not the girl that I used to beCause you, you weren't the one for me
I can't go back, back to just you and me
Cause I could never lie, something inside just died
It was youHow does it feel to be so untrue?
And there's nothing even you can do
All those years of lying to yourself
I think you'll find that you're back on the shelf nowSo I hid behind my smile
Lost in thought just for a while
Then one day I walked away
No, you never loved me anywayCause you, you weren't the one for me
I can't go back, back to just you and me
Cause I could never lie, something inside just died
It was youDon't come running back to me
And don't come running back to me
Don't come running back to me
Don't come running back to meCause you, you weren't the one for me
I can't go back, back to just you and me
Cause I could never lie
It was you, you weren't the one for me
Cause I could never lie, something inside just died
It was you
