

Baggage

Lagwagon

Stand by... stand by... all that we've been thru all we can't undo I'm picking out the songs to set the mood
they'll play them at a funeral for you I have been the only friend I have stayed until the end I'm telling you my
brother I am through it's a measure of pity that I won't carry... I won't carry it's a matter of duty but I won't
carry... I won't carry you most of us have our secrets one deep-rooted mark we can't remove I'm guessing yours
still owns you I can't dig mine up to bury you I have been the only friend I have stayed until the end I'm telling
you my brother I am thru I will lie with the guilty but I won't carry... I won't carry... it's a measure of bad
dreams but I won't carry... I won't carry you
