

Tonight Tonight

Bebe Winans

The way you smile makes everything okay
And when you're near the troubles fade away
And when you speak, oh my even the winds obey
And it's the only love that makes me high
That I wanna see you tonight
Tonight, tonight I really need you tonight
The day was long and the bills are due
When can't go on, you know I think of you
Life is hard, but your love is true
It's the only love that takes me out
I wanna see you tonight
Tonight, tonight I really need you tonight
You see the more I learn is the more I love
I just wanna share my life with you, yes I do
I need you by my side everytime I cry
Your loving arms will pull me through
And I really wanna see you tonight
Tonight, tonight I really need you tonight
Tonight, tonight I wanna see you tonight
Tonight, tonight I wanna see you tonight
Tonight, tonight I wanna see you tonight
Tonight, tonight I really need you tonight
