

I Am California

John Craigie

You tried to drown your sorrows
You shouldn't have taught them how to swim
And now you are right back where you began

Winter sky's approaching
all along in the wasteland
Alone is the only way
that they let you in

[Chorus]
So drink all my wine
Cut all my trees
Make love on my beaches
Smoke all my weed
I am califonia
Can't you see
Wherever you roam
you'll always want me

We struggle with our lovers
Don't know what to let in
cause the new ones pay for the old ones sins
Blinded by your shadows
Feeding on your love
You don't know how deep you are
Till you get pulled back up

[Chorus]

[Chorus]

Yeah dig all my gold
Soak in my springs
Conquer my mountains
If that's what you need
I am califonia can't you see
Wherever you roam
You'll always want me
You'll always want me
You'll always want me

You'll always want me
You'll always want me
You'll always want me
You'll always want me
You'll always want me
You'll always want me
