Illogic

Nasum

[Music & lyrics: Jesper Liverod]A new wave of slander, hid as logic
Washed upon our shores
Reason be ignored
It seems shame relives and breathes againI defy you
- the old beast awakened again
Despise you
- the old beast awakened againCultural diversity
Was always a good thing to me
Don't give me that excuse
You fascist fucking fool
I'll call to arms
Unto the enemy within
A farce turned into darkness
I won't be your goddamn toolI thought we were done with this
Your right-winged folly upon us again
Let face be face, skin be skin
It's you who's the enemy within!I defy you
- the old beast awakened again
Despise you
- the old beast awakened again
I defy you
Despise you
Deride you
I won't have it again
