

# One Step

Annie Drury

Hold your body, close my eyes  
Leve me on the dance floor tonight  
    whit my to left feet  
    don't no left from right  
    but I dance for you  
    only you.  
(Dance with me, dance with me)  
    sway across the floor  
(Dance with me, dance with me)  
    Hold me close  
With the one step, two step, three step, four.  
    With my two left feet  
    see me across the floor.  
With the one step, two step, three step, we dance because we want to.  
    We dance because we love to.  
    You tell your mother  
    you want to marry me.  
    She sad boy oh boy  
    that girl got two left feet.  
You sad I don't mind if she can hold a single beat  
    I dance with her, because I want to.  
    (Dance with me, dance with me)  
    sway across the floor  
    (Dance with me, dance with me)  
    hold me close.  
With the one step, two step, three step, four.  
    With my two left feet  
    see me across the floor.  
With the one step, two step, three step, we dance because we want to.  
    We dance because we love to.  
With the one step, two step, three step, four.  
    with my two left feet  
    sweep me across the floor.  
With the one step, two step, three step, we dance because we love to.  
    We dance because we love to.
