Nightmare

Dry Kill Logic

Advisory - the following lyrics contain explicit language:

I don't like in you
Something strange I cannot follow
How you want me to
However small it seems, so shallowIf you only knew
Such a feeling for words, so hollow
What I'd done to you
You'd cryMe plus you equals, I never sleep
Me plus you equals, nightmareYou took it all away
I alone replace what's broken
Nothing left to say
Muted words that were not spokenIf and when I may
Life is over lack of motion
Shamed is where I lay
I triedMe plus you equals, I never sleep
Me plus you equals, nightmareNever before have I felt so hollow
First one to lead and now I follow
Carry the things that I cannot dismiss
Never again do I think I will feel this
Never again do I think I will feel thisMe plus you equals, I never sleep
Me plus you equals, nightmare
You worthless piece of shit
Me plus you equals, I never sleep
