

# Tonight (Feat. Dominic Lalli)

## Cherub

I hope I'm not getting too sentimental  
But tonight might be something special  
    All the drugs were fundamental, in  
Getting us on that level (so we say) Hell yeah motherfucking right  
    Tonight, is a good night  
    To start the rest of our lives  
    So we toast to the stars in the sky  
        As they  
    Disappear deep into your eyes You gotta' fake it 'til you make it  
    I've accepted it and embraced it (that's why)  
        We're so heavily medicated  
But somehow speak in the same language ('cause we say) Hell yeah motherfucking right  
    Tonight, is a good night  
    To start the rest of our lives  
    So we toast to the stars in the sky  
        As they  
    Disappear deep into your eyes I love you, and  
        I want you to know that  
        The drugs are working  
Are they working for you, or against you, cause  
    I hope we don't get lost in translation  
    Because I'd rather get lost in a moment with you  
And have love sensations (Ladies and gentleman please remain seated as the seat belt sign  
    Is illuminated, thank you)
