

# Get Into the Spirit

## Halford

When I look around me  
And see what's going on  
I think about the time we had  
And where we all came from Here comes the dream that's been waiting  
The triumph we seek is so close it's so near  
I love the chance we've been taking  
The moment for us is right here Get into the spirit  
Reach up to the sky  
Get into the spirit  
Raise your spirit  
Raise your spirit high Together on this journey  
We saw each other through  
Side-by-side we realized  
There's nothing we can't do Yeah, here comes the dream that's been waiting  
The triumph we seek is so close it's so near  
I love the chance we've been taking  
The moment for us is right here Get into the spirit  
Reach up to the sky  
Get into the spirit  
Raise your spirit  
Raise you spirit high The miracle of life is full of mystery  
It touches us with grace to man before  
The miracle of life is now our sanctuary  
Oh the promise of our dream is what will come Together we'll make magic  
And conquer all our fear  
The bond we have is sacred  
And lives year after year Here comes the dream that's been waiting  
The triumph we seek is so close it's so near  
I love the chance we've been taking  
The moment for us is right here Get into the spirit  
Reach up to the sky  
Get into the spirit  
Raise your spirit  
Raise your spirit high
