

# I Jus' Lie

## Snot

I jus' lie like your type  
I'm telling you what you want to hear  
(Or do you really take me true?)  
It's what you need to feel before you  
Spread them legs for me Although I look your way  
You start to play your games again  
And no I really don't wanna hear it  
Now come here  
Shut up  
You think this is real?'Cause I jus' lie  
When I speak about the sexual prowess I got  
(You know I'm really not that great in bed)  
10 seconds down  
'Bout 8 seconds longer than I got for you Needed some quick relief and all I got was grief again  
I guess I shoulda seen it comin'  
Now shut up  
Lie down  
Put ya' to the test  
(How'd ya guess?) I jus' lie  
Well this choice is not just, mine  
I jus' lie  
And I don't make ties that bind I've seen the games you play  
And I'm wishin' you'd go away  
No there's something I must find  
Explain the reason why  
I jus' lie And I'm tired  
Of this fucking eggshell walk  
(Yeah like you did me a favor)  
You think for one good screw  
I'd trust someone like you at all? Myself I know the excuse  
So sorry you got used again  
And of course I'll call you later  
Now shut up  
Get out  
This one fell short  
(You wonder why?) I jus' lie  
Well this choice is not just, mine  
I jus' lie  
And I don't make ties that bind I've seen the games you play

And I'm wishin' you'd go away  
No there's something I must find  
Explain the reason why  
I jus' lie Straight white male  
In search of bisexual female  
For love relationship  
Long walks on the beach  
A good book in front of the fire  
And lots and lots of anal sex
