Now That I've Found You (feat. John & Michel)

Martin Garrix

[Verse 1]
Flashback to the time in your life
When you thought it would be easy
But it's hard when you're take on the world alone[Verse 2]
The one shot that you fire at the sky
Hoping someone else can see it
Just a sign that you're not out there on your own[Pre-Chorus]
We come one tonight
I've been waiting for your wake up call
Growing stronger now
I can hear it in a thunderstorm[Chorus]
We sing, oh oh oh oh oh
I don't want to do this without you
Oh oh oh oh oh
I won't let go now that I've found you
Now that I've found you
Oh oh oh oh oh
I won't let go now that I've found you
Oh oh oh oh oh
I won't let go now that I've found you
Now that I've found you[Verse 3]
Some say you can never go back
To the city built for dreamers
But I know we can find it on our own[Verse 4]
The one shot that we fire at the sky
But this time we are together
We're right here in this moment where we belong[Pre-Chorus]
We come one tonight
I've been waiting for your wake up call
Growing stronger now
I can hear it in a thunderstorm[Chorus]
We sing, oh oh oh oh oh
I don't want to do this without you
Oh oh oh oh oh
I won't let go now that I've found you
Now that I've found you
Now that I've found you
Oh oh oh oh oh
I won't let go now that I've found you

Now that I've found you
