

Lifelike

Dust For Life

Way down low with the pretty ones

Floating on beautiful pills

So lifelike it's becoming realEverything is alright

Life is but a dream

Everything is alright

It's so lifelikeDeep inside your secret place

Cover me like a liquid angel

This hunger I could never feed

You are my uncertain dangerEverything is alright

Life is but a dream

Everything is alright

It's so lifelikeEverything is alright

Life is but a dream

Everything is alright

It's so lifelikeEverything is alright

Life is but a dream

Everything is alright

It's so lifelike
