What In the World

Doug Supernaw

Came home to a house
Where everything was emptied
They took my T.V. and my chair
They even found her jewelry
And the police say there's nothing they can do
'Cause it happens everyday
Before I fell asleep when she was cryin'
This is all I could sayWhat in the world is this world coming to
Can't have a damn thing nice, no use to try to
What is one man feelin' helpless supposed to do
What is in the world is this world comin' toCome home to a house
Where everything was emptied
She left my T.V. and my chair
Now I', lost in memories
And my friends tell me there's nothing they can do
'Cause it happens everyday
And as I fell asleep that night cryin'
This is all I could sayWhat in the world is this world coming to
Can't have a damn thing nice, no use to try to
What is one man feelin' helpless supposed to do
What is in the world is this world comin' to
