Black River

Paul Weller

Black river

Black river

Black riverThe storys still unfolding and like the river rolling

It's always moving like a tide

Seemingly unchanging

But of course nothing stays the same, you'll seeBlack river

Black river

Black riverAnd if I scratch the surface and try to look to learn it

Oh, what fantastic worlds I'll find

Stay with me forever

Buried deep inside my mind, you'll seeSha, la, la, la, la

I'm casting out my line

Although its floating by

Who knows what I'll find, we'll seeIt's early in the morning, I watched a raindrop falling

So slim and tender from a leaf

It stays with me forever

Buried deep inside of me, you'll seeBlack river

Black river

Black riverBlack river

Black river

Black river

You drifter
