

You Are Love

Narada Michael Walden

You Are Love
Narada Michael Walden

You are love
Sent down from above
I can hear your soul symphony

Heard I am
Let me take your hand
Let us share this feeling which is free

Love, you're the shining star
You're the light that takes my heart
And lifts my life up high

Love, you're the glowing sun
In you, we are one

Come with me
Love will set us free
Let us play a soulful symphony

You and I
Together we will be
In a world where love is ecstasy

Love, you're the shining star
You're the light that takes my heart
And lifts my life up high

Love, you're the glowing sun
In you, we are one

Love, let us share our hearts
Let us never part

Ooh, ooh, ooh
