What About Love?

Meat Loaf

There is a hole in the sky tonight
Dare the moon drift too far from sight
I would search through this empty darkness
To see your face in the morning lightWe've been lost in a sea of confusion
Got caught up in a selfish illusion
But make no mistake, I will bend till I break
Don't let fate make the choice for usWhat about love that lasts forever?
What about time to see it through?
If you don't give, you just don't get it
What about me? What about you? What about love?Once in a lifetime you'll find someone heaven sent for you
For a lifetime you'll feel there's a reason to believe
In a love that's meant to beIt feels like we've fallen from grace
Given up on the higher thing
'Cause I know deep inside, if we search we will find
Something to give us wingsWhat about love that lasts forever?
What about time to see it through?
If you don't give you, just don't get it?
What about me? What about you? What about love?I can't go on another day
Comin' home and seein' you cryin'
Can't stand another night
Of telling you I'm fine when I'm dyingForever means nothing to live without you
Is reaching for something that never comes through
Together is heaven, apart we're in hell
The time for forgiveness is nowOhh, once in a lifetime you'll find
Someone to share your dreams
For a lifetime our love will always set us free
Forever we'll believeI can't forget the feelin' of your sweat upon my skin
And the tremble of your body on the day you let me in
It happens once, only once in a lifetimeOn a summer night's surrender with nothing to lose
You were scared and so was I when I gave myself to you
It happens once, only once in a lifetimeWhat about love that lasts forever?
What about time to see it through?
If you don't give, you just don't get it
What about me? What about you?What about love that won't say never?
When you don't know what you can do
If you don't live you just regret it
What about me? What about you? What about love?
