

Wrecking Ball

King Wilkie

I dreamed of you in my arms so tight last night
With a lonesome chill I woke without you nearby
The red bird shook his wing spread wide
If I had wings I would fly so high so high

She's a wrecking ball comin' through my wall so tall
Like a house of straw these beautiful dreams we fall
If I could change your troublesome mind
Make that pretty girl mine all mine all mine

She's a wrecking ball comin' down on me

A jumbo jet headed west in the sky last night
If I were aboard I would bid that girl goodbye
When darkness falls and cold wind swirls
Voice I hear in the middle of the night that girl

She's a wrecking ball comin' down on me
She's a wrecking ball comin' down on me

I dreamed of you in my arms so tight last night
With a lonesome chill I woke without you nearby
If I could change your troublesome mind
Make that pretty girl mine all mine all mine

She's a wrecking ball comin' down on me
She's a wrecking ball comin' down on me
