

Liar

Moke

You made promises to me
no fears, everything is easy
seal the moment, save the paper
soon'll be a way, retire
I wake to you knocking at my door
these walls hide a room full of mirrors
look inside and you will find that somebody in here is a liar

somebody wants to bed my partner
somebody wants to be a martyr
petty thief is on the loose
I see you - you wasted aging naked traitor scheming failure

You are a liar, you are a liar

You played innocent to me
same tale with one or two small pieces missing
sister says that she has seen you sneaking up the stairs
when you look inside then you will find that somebody in here is a liar

somebody wants to erase the picture
somebody needs to shake the blame
you embraced this copulation
I take leave of all your senses
you are neutered you are headless

You are a liar, you are a liar

said you never wanted, you were only here to give, liar
told me that you loved me now you left me here today a liar
every single one of you is nothing really more than a liar
every single one of you is nothing really more
