Say I Do

Home Town Hero

This place tastes like salty rain
Like salty rain but never grows
He wasnt pretty, enough to pity
So sign right hereHow did it feel when you said, "I do"?
We all catch feelings baby, just like you
Sign right here, sign right here, yeahSay I do, then I will
Hold me here through this spell
When I wake, hold me down
Take my life, take it nowSay I do, then I will
Hold me here through this spell
When I wake, hold me down
Take my life, take it nowThis place tastes like salty rain
Like salty rain but I never grow old
He wasnt pretty, enough to pity
So sign right here, yeahSay I do, then I will
Hold me here through this spell
When I wake, hold me down
Take my life, take it nowSay I do, then I will
Hold me here through this spell
When I wake, hold me down
Take my life, take it nowSay I do, then I will
Hold me here through this spell
When I wake, hold me down
Take my life, take it nowSay I do, then I will
Hold me here through this spell
When I wake, hold me down
Take my life, take it now
