Soul Taker

Erectus Monotone

Walking in the darkness
Like a predator from the wild
Looking for those who are gasping
For the last breath to take them away
Some to a better place
Some to a place where
The fires never stop burning
You can cry for help
No one is listening
'Cause everyone is deaf
From the death that is surrounding them
No angel takes you home
No angel takes you to heaven
But the soul taker comes

And takes your soul away
His eyes shines wild fire
And he' s here to take you away
He' s the.....
Chorus:
Soul taker, soul taker
Soul taker takes your soul
You gotta be ready
