Ski Mask

Bride

Let's go out and have some fun
With our ski mask and hand guns
Driving fast cars to the sun
We'll be blind but we'll die youngWe were wild when we were young
With our ski mask and hand guns
The law means nothing when you're numb
I bet those handcuffs weighed a tonSki mask and hand guns
Lived on the edge lived on the run
With those ski mask and handgunsI never knew love until I met you
Makes me do the things I do
Walking, talking, no use crying
Living, loving, no use dyingThere was a time I thought I knew it all
I could walk before I crawled
Jesus crushed my heart of stone
Gave me love I had never knownDon't need no, don't want no
