Nite Nite

Kano

Seriously man
Like, you know when you got a good girl
Or you know when she means something to you
When you've got like a name
Here we go again
Like I had a name for this girl
(Here we go)
I used to call her Ladybird
(Here we go again)
'Cos she always played red in Connect Four
(Here we, here we go again)
Link 'em and then leave 'em high
I've been tellin' all my mans for time
Link 'em and then leave 'em high
They never take my advice
But now I realize, I realize why
They have not been listening all this time
'Cos since I linked you, last night
I won't be taking my advice
Look, I call her, 'Nite Nite'
'Cos she sleeps from the day right to the bright light
An' I like her too much to say bye bye
But we getting on fine right, I don't wanna spoil it
I don't why I can't commit to girls
And I tell white lies, I'll find out the hard way
'Cos she got my favorite smile, my favorite style
The first hotel, my favorite time
And later we could have a baby, maybe a baby boy
My favorite child
"I'm way too tired", my favorite lie
My verse on so sure, her favorite rhyme
The windows are steaming up like it's naked time
Wait, we're way too bait
I bought her favorite shoes, or they better be
And she's even my favorite size
And she knows I hate holding hands
And I'm hooded up when it's bait inside
So I guess she's my favorite, right?
Right, 'cos nothing comes close to you

So numbers? No boys are taking yours
And no girls are taking mine
Groupies fuck that, I'm taking time
We speak from like 8 till late at night
When we gets on top, drop my favorite line
?Girl, I ain't going nowhere?
I plain ain't going nowhere
But, I like you, and it might take some time
But really I'm like
Here we go again
Link 'em and then leave 'em high
I've been tellin' all my mans for time
Link 'em and then leave 'em high
They never take my advice

But now I realize, I realize why
They have not been listening all this time
'Cos since I linked you, last night
I won't be taking my advice
I call her sometimes, and I wake her up at some dumb times
Touch my phone, and her number my thumb finds
'Cos she's ideal, like a nice meal, and a night in
With a nice feel maybe some wine
Maybe sometime we could hold hands in the park, in the sunshine
Sometimes, be patient with me if I got 3 raves in a week
Or in the studio, away for a week
One day we could book a vacation and leave
But please, "No drama"
I don't need beef like Shane, Forbe, Fabian an' Dean
I'm just focused on making the peas
Breaking the team, chasing a dream
I ain't on the street, maybe sometimes
But you can't say I don't make enough time
We speak everyday and meet every week
So I dunno, maybe it's me
You? You got it planned out, I don't make plans
You know me, I wait and I see
But if we were together, or even now
If we weren't, ?Sort-of", but were together
Would you be faithful to me?
Treat me massage me, and make me a tea?
Come link me, lay and wake up from sleep and look hot like 80 degrees?
And you know I never say that sort of thing
See? That's an angel to me
I wouldn't have said that before, you get me?

Link 'em and then leave 'em high
I've been tellin' all my man's for time
Link 'em and then leave 'em high
They never take my advice
But now I realize, I realize why
They have not been listening all this time
'Cos since I linked you, last night
I won't be taking my advice
No, no, no, no, no, no
Oh my, my, ow
Baby we could do this again sometime
I even have a special name for you
It's 'Long Baby', 'cos you always on my mind, yeah
I'll tell you straight, so straight, yeah
I won't tell my mates
No, no, I know, no, I know
Yeah, I like you
Here we go
Here we go again
Here we
Here we go again
