

Take Your Tops Off

Circuit Assassins

Welcome to the edge of the world, let it in, it's a beautiful habit
Take it cause you can, you got what I want and I just gotta' have it Now We're never going back
We're never going home

This is the way Take your tops off

Take your tops off

Take your tops off

Take your tops off

And take me home tonight

Welcome, it's the time, it's the moment to live like the future is dying

Just don't let it go, take anything that you want, try it

We'll blow in the wind, fight it out with the dust and the fire, yeah we light it

You won't hold it back, leave it all on the floor like you're ready to riot Now We're never going back

We're never going home

This is the way

Leave it all on the floor like you're ready to riot Take your tops off

Take your tops off

Take your tops off

Take your tops off

And take me home tonight I see you moving in the corner from here

You got the look so consumed with fear

And every way that your body's moving your shaking, your breathing heavy, your sweating and feeling like
you're losing control

Take your tops off

Take your tops off

Take your tops off

Take your tops off

And take me home tonight
