Next Stop Heaven

Nobody's Angel

I'm wide awake but you've got me dreaming
Make no mistake, I love how I'm feeling
I can't believe the spell that I'm under
You get to me and boy it's no wonderWith your heart beating next to mine
In perfect time, boy, you send meFirst you get a little bit close to me
All you do is look and my knees get weak
Then you start kissing so soft and sweet
Next stop heavenYou know exactly where to begin
Every time you touch me, you make me spin
Ooh, baby, baby, do that again
Next stop heavenYou've captured me without even trying
But I'm so free, it feels like I'm flying
I can't explain just how you do it
If loves a game I don't wanna lose itWith your heart beating next to mine
In perfect time, boy, you send meFirst you get a little bit close to me
All you do is look and my knees get weak
Then you start kissing so soft and sweet
Next stop heavenYou know exactly where to begin
Every time you touch me, you make me spin
Ooh, baby, baby, do that again
Next stop heavenHigher, ooh baby, only you take me
Higher, come on, baby, now only you make me
Higher, ooh baby, only you take me
Higher, let's goLet's goWith you heart beating next to mine
In perfect time, boy, you send meFirst you get a little bit close to me
All you do is look and my knees get weak
Then you start kissing so soft and sweet
Next stop heavenYou know exactly where to begin
Every time you touch me, you make me spin
Ooh, baby, baby, do that again
Next stop heavenHigher, ooh, baby only you take me
Higher, come on, baby, now only you make me
Higher, ooh baby, only you take me
Higher, let's goFirst you get a little bit
Then you start kissing so
You know exactly where to begin
Ooh, baby, baby, do that again
Next stop heavenFirst you get a little bit close to me
All you do is look and my knees get weak

Then you start kissing so soft and sweet
Next stop heavenYou know exactly where to begin
Every time you touch me, you make me spin
Ooh, baby, baby, do that again
Next stop heavenHigher
