

# My Little Baby

**T. Rex**

All my friends keep asking what do I see in you  
Through their eyes, your beauty doesn't show  
Ooh, all they ask is justified looking through the naked eye  
But through the eyes of my love, I see the inner beauty of you That's why you're my little baby  
That's why you're my little baby  
I don't want love on the skin  
It's got to come from deep within That's why you're my little baby  
My little baby  
My heart controls my eyes  
And your love I visualize, ohh, yeah All your so called girl friends who compliment your clothes  
Know that they're your mama's hand me downs, ooh  
The fashion world's turning so fast, you're still trying to catch the past  
But in my world of love your style, I know will always last That's why you're my little baby  
That's why you're my little baby  
I don't care what experts say  
Our love is tailor made That's why you're my little baby  
My, my, my, my little baby  
Like a brand new ermine coat  
You keep me warm as toast, little baby You know it's true, little baby  
You know it's true, girl  
You know it's true, little baby  
You know it's true, babe I'm sticking with you, little baby  
I'm sticking with you, girl  
I'm sticking with you, little baby Always thrill me when you touch me  
Honey, you thrill me when you kiss me, little baby, yeah  
Ohh, sweet baby, I've got to say I'm thankful  
That you're my little baby, my little baby You fill me up with pride  
Every time you're by my side, now, now, now, now Ohh, yeah, you're my little baby, my little baby  
My little baby, I've got to say  
I'm thankful that you're my little baby  
My little baby, my little baby Ohh, yeah, you're my little baby, my little baby  
My little baby, I've got to say  
I'm thankful that you're my little baby  
My little baby, my little baby
